## TECHNICAL PROJECTS

Pro Trade AI — AI-Driven Financial Analysis Platform

Live App

- Architected AI-driven financial platform using React and ML models for real-time market trend forecasting.
- Integrated MongoDB Vector Search for high-dimensional similarity searches on historical market data for pattern detection.
- Optimized data retrieval via efficient schema design, indexing strategies, and query tuning.

PropertyPanda HR AI — AI-Driven Recruitment Tool

Streamlit · Live

- Developed an AI recruitment assistant using Streamlit and LLMs to automate resume screening and candidate evaluation.
- Implemented RAG workflows for precise data extraction from unstructured documents, improving hiring efficiency.

Aegis Ai — Women's Advanced safety app

Edge AI · Live

- Developed a proactive safety application utilizing Edge AI to detect distress signals and ensure user security in real-time.
- Implemented background audio analysis to detect screams/aggressive shouting (local processing).
- Engineered offline SMS alert systems, fall detection algorithms, and live location tracking for emergency contacts.

Echo — AI Voice Assistant

Python · OpenAI GPT-4

- Engineered conversational AI assistant (Python + GPT-4) for natural language queries with minimal latency.
- Integrated speech-to-text/TTS APIs for hands-free use; state-management backend for multi-turn conversation context.

## EDUCATION

P.P. Savani University — Diploma in Information Technology

Surat, Gujarat | 2026

## CERTIFICATIONS & ACHIEVEMENTS

MongoDB AI & Advanced Skills

2025 · Verified

Vector Search · RAG Apps · Schema Design & CRUD · SQL-to-MongoDB · MongoDB Basics

Hacktoberfest 2025 Contributor — MLH Recognition

2025

Recognized by MLH for outstanding open-source contributions at the Women In Tech Conference Hacktoberfest event.

Coursera for Future of Work (C4FW) — 100+ Hours · 9 Certificates
